Small Group Questions:

Thinking about this week's teaching, was there a particular point, verse or comment that caught your attention, challenged you, or raised a question?

How much impact do you think cultural differences within the body impact our ability to care for each other well?

It was stated that body problems have body solutions. Where do you see that practically playing out in our church? Where can we grow in that?

How does the church tend to assign value to leadership roles? Is that Biblical?

How can we see both a commitment to the word and a commitment to the body as missional?

Where do you feel God calling you to be more engaged with this body? What is a good next step for you as you engage with this body?
